

# LINN

## KEY FEATURES INCLUDE

- The Sweetspot fits naturally into rows of halogen downlighters.
- Simple to install. Any DIY enthusiast or professional installer can create simple or elaborate Sweetspot installations and bring high quality sound to a variety of spaces in any type of room.
- It is so small and versatile it can be installed into virtually any flat and rigid surface.
- Waterproof and corrosion proof.

The Linn SWEETSPOT is a very small high performance recessed loudspeaker, perfect for indoor and outdoor use. It is waterproof and corrosion proof, making it perfect for marine applications, bathrooms, showers, pools, patios - in fact the SWEETSPOT is so small and versatile it can be installed into virtually any flat and rigid surface. Measuring only 3.5 inches in diameter and 5 inches deep, the SWEETSPOT unconventionally employs a huge magnet and long voicecoil assembly to produce accurate sound quality, high power handling and a frequency response unmatched at this size.

The SWEETSPOT fits naturally into rows of halogen downlighters and is simple to install. A pair of multiple arrays can provide a wide uniform dispersion of high quality sound from an apparently invisible source when installed in ceilings, deck-heads - even furniture and other suitable surfaces.

The SWEETSPOT can be painted to blend into any surrounding and is ideal for locations not normally considered for loudspeaker placement.

Any DIY enthusiast or professional installer can create simple or elaborate SWEETSPOT installations and bring high quality sound to a variety of spaces in any type of room.

The SWEETSPOT is attractively packaged and comes complete with easy to follow, illustrated step-by-step instructions and templates.
